2/17 LNG Community Meeting

On Saturday (2/17), CRCQL hosted an LNG Community Meeting to inform residents about the potential LNG project in Chester. LNG not only causes pollution to the environment, it is also a detriment to the community itself. Jobs created by the LNG facility do not welcome Chester residents, as highly skilled engineers are needed. Ms. Zulene stressed that the Chester Community has the right to demand both a clean city AND good jobs for Chester residents.

Although the Biden administration has temporarily paused the construction of LNG facilities, the threat still exists. Community members discussed the responsibility to educate other residents about LNG as an international issue. Fighting for Chester is joining the global fight against polluting industries! 3/30 Subaru Canvassing

We will be canvassing at Subaru Stadium in Chester on Saturday, 3/30 from around 11:00–2:00pm. Subaru Stadium is proud to call themselves the “first zero landfill stadium in Major League Soccer,” telling patrons that Subaru is an environmentally conscious stadium. In reality, Subaru Stadium LIES!! They continue to send waste to be burned at the Covanta incinerator and continue to pollute Chester!!!! Please sign up [here](#). We also need a van driver!!! Contact [rcraig1](#) if you are available <3
