## Canvassing Workshop

The canvassing workshop on March 6th was a huge success! Accompanied by delicious Domino pizzas, students learned about the golden formula for canvassing: introduce, connect, show, and tell. Ms. Zulene joined us on Zoom with some great advice.

## Say NO to Hydrogen Hubs!

CRCQL and C4 attended the Hydrogen Hub Summit to express community opposition to the project. Local politicians have decided to build a hydrogen hub in Chester City, and more broadly Delaware County, WITHOUT consulting community members (or even inviting them to this meeting). This project poses multiple health and environmental justice threats to the people of Chester and communities throughout Delaware County.

## German Parliament Members' Visit to Chester!

Lisa Badum of German Parliament and Parliamentary advisor on international climate and energy policy Jimmy Dögerl visited Chester two weeks ago!

They have been working to call for a global moratorium on new LNG infrastructure and support CRCQL's cause to forestall Penn LNG from coming to Chester as it exports LNG all the way to Germany. Touring Chester's waterfront facilities, they discussed the global hazards of LNG.

## Chester Fun Fact!

You can use Swat Points at DUO TACO in Chester, 540 Avenue of the States, accessible by the 109 bus right from campus! What a great way to support Chester residents!
