February 2025

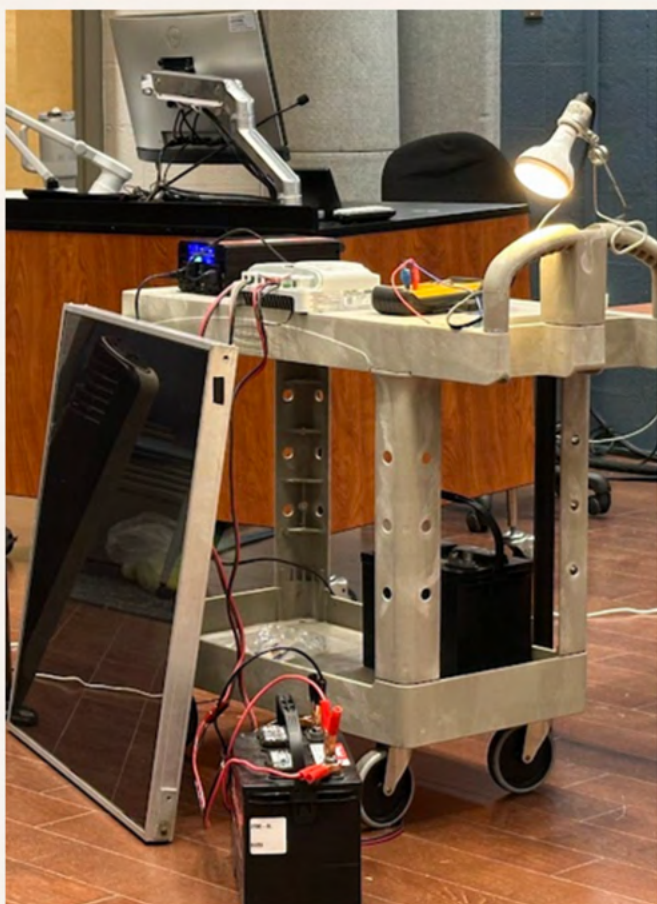

2/5 DELAWARE COUNTY COUNCIL

C4 members showed up to DCC. While there wasn't time for our comments addressing LNG, MACH2, and incineration, DCC knows we're watching!

2/12 + 15 GEC SOLARAG LABS

GEC went to YEAH Philly for the first two SolarAG Lab sessions. We had fruitful conversations about colonialism and environmental justice principles. There is much to look forward to in the next several weeks, including hands-on experiments!

2/13 MACH2 PRESENTATION @ CRCQL MEETING

OCED cancelled their MACH2 information session without transparency, so CRCQL held their own! Members from the Delaware Riverkeeper Network presented on the dangers of LNGs and Hydrogen Hubs and how we are fighting back to keep communities safe.

PRESSURE LOCAL AUTHORITIES! ACTION: REACH OUT TO SENATORS

The new administration has been aggressively hostile to clean energy and environmental justice communities, attempting to freeze federal climate funding, removing climate information from government websites, and gutting the EPA's Environmental Justice office.

We urge you to please call your senators regularly:

Dave McCormick (PA Rep):

John Fetterman (PA Dem):
